Claims 1-16, 24, 25 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 1, the prior art of record taken alone or in combination, fails to disclose or render obvious conducting computer analysis on the image(s) captured in step b) to determine the maturity of the cellulosic fiber by comparing the image(s) interference data to maturity reference data, and wherein an average value of fiber maturity and a fiber maturity distribution is determined for the sample of fiber, in combination with the rest of the limitations of the claim.

As to Claim 24, the prior art of record taken alone or in combination, fails to disclose or render obvious conducting computer analysis on the image(s) captured in step b) to determine the maturity of the cellulosic fiber by comparing the image(s) interference data to maturity reference data, wherein the analysis includes determining the interference data of the images as a percentage of an area of any one or a combination of yellow, red, green, and blue interference colors in the images to a total area of fiber in the images, and comparing the percentage area to the maturity reference data to determine at least one of an average value of the fiber maturity for the fiber in the images(s) and a fiber maturity distribution for the fiber in the images, in combination with the rest of the limitations of the claim.

As to Claim 25, the prior art of record taken alone or in combination, fails to disclose or render obvious conducting computer analysis on the images captured in step b) to determine the maturity of the cellulosic fiber by comparing interference data of the images to maturity

reference data, wherein the analysis includes determining the total area of the fiber captured in the images as a percentage of an area of any one or a combination of yellow, red, green, and blue interference colors in the images to the total area of fiber in the images by pixel analysis, and comparing the interference data to the maturity reference data to determine at least one of an average value of the fiber maturity for the fiber in the images and a fiber maturity distribution for the fiber in the images, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
